MR. TAFT, AND TO SPARE

OHIO MAN WILL HAVE IN NEIGHBORHOOD OF 300 ELECTORAL VOTES.

HADLEY MAY HAVE BEEN ELECTED

Chairman Dickey, of the Republican Committee, Makes the Claim—Returns From All Over The Country.

New York, Nov. 4.—William Howard Taft, of Ohio, republican, has been elected the twenty-seventh president of the United States, and James Schoolcraft Sherman, of New York, chosen vice president, as the outcome of one of the most remarkable political campaigns in the history of the republic.

William Jennings Bryan, of Nebraska, the democratic candidate, went down to his third defeat in his life's ambition to occupy the White House. Early returns indicated that Taft would have at least 298 electoral votes, and later details showed the figure might reach Mr. Hitchcock's estimate of 325, or even 336, achieved by Mr. Roosevelt in 1904.

The republicans retain control of both houses of congress.

The Battle in Missouri.

St. Louis, Mo., Nov. 4.—Missouri, last night apparently democratic by a large majority, is still in doubt on all but the national ticket. The 35,000 Bryan plurality then indicated will not exceed 20,000.

Republican managers are claiming that Hadley is elected governor. The democrats make the same claim for Cowherd.

Late returns indicate that the vote will be extremely close, and the winner's plurality may not exceed three or four thousand.

The complexion of the next legislature, which will have the selection of a successor to United States Senator Stone, is also in doubt and the republicans hope to control it on joint ballot.

Meager returns from the republican senatorial primary indicate that Lieutenant Governor McKinley has given Kerens a close race, and possibly won the nomination.

The outcome of the spectacular fight between Governor Folk and Senator Stone is still in doubt, the returns from the country reducing the strong lead the city gave Stone.

The St. Louis count is still incomplete. Hadley, however, carried the city by 12,000 to 15,000, and Stone by a similar figure. The entire republican city ticket is elected.

Claims Missouri for Taft.

St. Louis, Nov. 4.—At noon Chairman Dickey, of the republican state committee, gave out this statement: "Hadley is governor. That is certain. We have also elected the entire state ticket, including a majority of the legislature. That means that the next United States senator from Missouri will be republican."

"From telephonic returns from all corners of the state I believe Taft has received more votes than Bryan, and Missouri's eighteen electoral votes will be found in the republican column."

Additional Missouri Returns.

St. Louis, Nov. 4.—Incomplete returns from fifty counties in Missouri show that Taft is leading Bryan by about 1,000.

In St. Louis, 246 out of 403 precincts give Taft 41,084 and Bryan 35,336.

Incomplete returns from eighty-six counties and the city of St. Louis give Hadley 130,029 and Cowherd 114,439, a Hadley plurality of 15,590.

Sixty-two counties and St. Louis, incomplete, give Stone 47,600 and Folk 39,312, a Stone plurality of 8,288.

Hadley Carried St. Louis.

St. Louis, Nov. 4.—Hadley is leading Cowherd by 15,042 votes, according to incomplete returns from forty-nine counties, including Kansas City and St. Louis.

The same precincts give Stone a lead of 9,595 over Folk.

Returns for the republican nomination for senator from twenty counties give McKinley 8246, Kerens 4352, Kenish 3166.

Of Hadley's lead, he gets 11,000 in this city and 2,900 in St. Louis county.

Twelfth Missouri Democratic.

St. Louis, Nov. 4.—Collin M. Selph,

democrat from the Twelfth Missouri congressional district, is elected. A democratic gain.

Republican Was Defeated.

Kansas City, Mo., Nov. 4.—The voters of Jackson county yesterday elected the whole democratic county ticket, including W. P. Borland for congress against E. C. Ellis, and rolled up majorities variously estimated from 4,000 to 6,000 for Cowherd for governor against Hadley.

They also gave a substantial majority for Bryan, and did likewise for Senator Stone in his fight for re-election against Governor Folk.

Defeat for Governor Folk.

St. Louis, Nov. 4.—Senator Stone is leading Governor Folk for the nomination for United States senator. He has carried many counties which Folk claimed.

If Stone comes to St. Louis with several thousand, as claimed, he will win by 20,000.

Democratic Congressman Elected.

St. Louis, Nov. 4.—Madison R. Smith, democrat from the Thirteenth Missouri congressional district, is elected.

Legislature May Be Democratic.

Jefferson City, Nov. 4.—Returns received here indicate that Hadley has defeated Cowherd for governor by a small plurality. Stone defeated Folk by 40,000, and it looks as if the legislature will be democratic on joint ballot by five.

Taft by 50,000 in Ohio.

Cincinnati, Ohio, Nov. 4.—By not less than 50,000 plurality, Taft was yesterday given the vote of his native state. From the start it was evident that Taft had won, but the figures were slow in coming in.

The democrats gained in the congressional delegation, securing one of the Cincinnati congressmen, although Nicholas Longworth (republican) won in his district.

Maryland for Mr. Bryan.

Baltimore, Nov. 4.—Fuller returns this morning indicate that the slight Taft plurality was wiped out and Maryland has gone for Bryan.

In the last election the electoral vote of the state was split, the republicans receiving one and the democrats seven.

The legislature appears to be republican, but this will not affect the senatorship, John W. Smith (democrat) having already been elected to fill out the unexpired term of William Pinkney Whyte, and also the term beginning March 4, 1909.

No state officers were chosen, and no state questions submitted.

Republicans Still in Control.

Chicago, Nov. 4.—It is now certain that the republicans will control the next national house of representatives.

Returns from 355 districts give the republicans 196, democrats 159, missing 36. Necessary to control, 196.

"Uncle Joe" Bobs Up Again.

Danville, Ill., Nov. 4.—Joseph G. Cannon has been re-elected to congress by a plurality considerably above the normal.

Returns are still incomplete, but enough figures have been obtained to show that he will probably have a plurality of at least 10,500.

Kansas Democratic Senator?

Topeka, Kan., Nov. 4.—Chairman Henderson Martin, of the democratic committee, this morning conceded the defeat of Bryan and the state ticket, but claimed enough members of the legislature to elect a democratic United States senator.

Chairman Dolley, of the republican committee, claims 40,000 for Taft and the state ticket. He says the complexion of the state legislature is in doubt.

Republicans Have Legislature.

Topeka, Kan., Nov. 4.—The latest returns indicate that the republicans elected a majority of the state legislature. The y will probably have a working majority of twenty-eight members. This will allow them to elect a successor to United States Senator Long. The primary nominee is J. L. Bristow, of Salina.

Changed by Later Returns.

Kansas City, Nov. 4.—At 12:30 p. m. today, W. R. Stubbs, successful republican candidate for governor, talking over the long distance telephone from his home in Lawrence, said:

"The Kansas legislature is in doubt and it looks bad for the republicans. It will be some time before the result is known."

Returns received here by the Star

The Man of the Hour.

up to 12:30 slightly favor the election of a democratic majority in the Kansas legislature, which would mean the election of H. P. Farrelly to the United States senate.

Looks Better for Bristow.

Topeka, Kas., Nov. 4.—2 p. m.—It is now known beyond doubt that the republicans of Kansas have elected enough members of the legislature to have a working majority to choose a successor to United States Senator C. I. Long.

Reliable returns show 91 republicans elected sure, 39 democrats and 35 doubtful out of 165.

New Jersey Goes Republican.

Trenton, N. J., Nov. 4.—New Jersey, which has not returned a democratic plurality since 1892, when Cleveland carried the state by 14,000, yesterday stood firm in its republicanism, and gave a plurality for Taft which is about 50,000.

Republican leaders put the state in their sure column, and not a great deal of campaign work on national issues was done. As there was no state election yesterday the contest was a quiet one.

The hardest battles were fought in the congressional districts, where it appears that the republicans have increased their representation in the state delegation from six to seven, by winning the election in the Eighth. There is a chance that another representative of the republican faith has also been elected in one of the three other districts which were democratic.

Taft Seems Safe in Wyoming.

Cheyenne, Wyo., Nov. 4.—Wyoming, which since 1892 in national elections has shown a steadily increasing republican vote, yesterday dropped back a notch, but not far enough to change its faith, and the state is safely for Taft by a plurality of about 8,000.

No state officers were elected, but members of the legislature were chosen. Frank W. Mondell (republican) was elected to succeed himself in congress.

A constitutional amendment, vitally affecting the state board of equalization, was voted on.

Republicans Retain California.

San Francisco, Cal., Nov. 4.—The labor vote and the Japanese exclusion plank in the Tenny platform served to complicate yesterday's election in California, and to cut down the republican vote, but Taft appears to have carried the state by a wide margin, his plurality perhaps being in the neighborhood of 80,000.

A legislature was chosen, which will elect the successor of George C. Perkins (republican) in the United States senate.

Bryan Wins in Kentucky.

Louisville, Ky., Nov. 4.—Kentucky, which has been fondly cherished by the republicans as "fighting ground" yesterday rolled up a majority for the democratic national nominees. Bryan's majority on the face of figures now at hand is something more than 10,000 and may go to 12,000 or even 15,000.

The democrats, however, have failed to make a clean sweep of the congressional delegation, there still being three and perhaps four republicans among the eleven Blue Grass congressmen.

By reason of the bitter fight made against former Governor Beckham, the democrats have lost the place in the senate occupied by Senator McCreary, former Governor W. O. Bradley having been elected.

Taft Victorious in Nevada.

Reno, Nev., Nov. 4.—Roosevelt carried this state four years ago. The vote yesterday shows a majority for Taft, who has a plurality of about 2,000.

Much of the increase is attributed to the influx of mining element. Francis G. Newlands, democrat, is a candidate for re-election to the United States senate, and the legislature may be of his political persuasion.

Mr. Bryan Carried His County.

Lincoln, Neb., Nov. 4.—Beginning with a brilliant victory in his home precinct, Mr. Bryan reversed a majority of 2,000 in this city and carried his county by a handsome plurality, and will win the state by 10,000.

His vote is unprecedented, Lancaster being counted the banner republican stronghold of the state. The republicans are claiming the legislature by a slender majority.

Montana Is Republican.

Butte, Mont., Nov. 4.—First on one side, and then on the other, Montana yesterday cast the most of its votes for the republican cause, and Taft carried the state by a plurality which may total 6,000.

Edward Dolan, republican, has been elected governor, and other republicans straight down the ticket seem to have been successful with them in their contest for state offices.

The socialist vote cast was so large as to play an important part in the day's results.

North Dakota Favors Taft.

Bismark, N. D., Nov. 4.—Indications, which are definite but not conclusive, point to a republican victory in this state yesterday, and to a plurality for Taft of about 25,000.

The republicans have also been successful in electing their state ticket, headed by C. A. Johnson.

Mormons for the Republicans.

Salt Lake, Utah, Nov. 4.—Utah yesterday held on to its place in the republican column, giving Taft and Sherman a plurality of 25,000.

The plurality of Roosevelt in the last national election was 29,033, and that of Cutler in the last state election 12,790.

Utah's congressman elected is a republican and the legislature chosen is also against the democrats. The term of Senator Reed Smoot, republican, expires in March, and his successor must be chosen by this new assembly. Smoot in all probability will succeed himself.

William Spry, republican, was elected governor and the others on the ticket were elected with him. Voters were not called on to decide on any constitutional amendments.

Gov. Johnson in Minnesota.

Minneapolis, Minn., Nov. 4.—Minnesota, which has never wavered in its republicanism at a presidential election, even when she elected a democratic governor at the same election, gave the usual plurality to Taft and Sherman, about 60,000.

The race between Jacob F. Jacobson and John A. Johnson for governor is close, with the chances resting in favor of Johnson. It will probably take the official count or surely fuller returns than are now obtainable to name the winner.

The delegation in congress remains unchanged, the one democratic congressman holding his own, while the eight republicans have been successful.

Four proposed amendments to the constitution were voted on, but their fate remains in doubt.

South Dakota for Ohio Man.

Pierre, S. D., Nov. 4.—Factional quarrels of the republicans in South Dakota were healed in time to permit them to get out their full vote and concentrate it to one ticket, and as a result Taft and Sherman have carried the state by a plurality of 15,000.

The state legislature is safely republican and will elect C. I. Crawford, the nominee at a primary election, to the United States senate, to succeed Alfred B. Kittredge, republican, who term expires next March.

Robert S. Vessey has been elected governor and the full republican ticket with him.

Two congressmen at large, the state delegation, are both republicans.

The Vote in Indiana

Indianapolis, Ind., Nov. 4.—High power, six-cylinder, ruthless, money-spending resorts kept Indiana in the republican column yesterday, so that its fifteen electoral votes will be counted for Taft by a plurality of about 20,000. At the eleventh hour

Chairman Hitchcock poured a golden stream into the state. The screws were put on in every precinct and in every ward. It is the story of 1896 over again.

Taft's victory, however, leaves some solace to the democrats by reason of the probable success of their state ticket headed by Thomas R. Marshall. It was expected that the democratic state ticket would run ahead of the national ticket. The election prophets for the most part counted Marshall in before the ballots were cast, but still maintained that Taft would get the state.

Defeat a Blow This Time.

Fairview, Lincoln, Neb., Nov. 4.—At 11 o'clock last night William Jennings Bryan went to bed. He made no statement for the public. None was needed to admit his third failure to gain the presidency.

As plainly as any formal writing could have said, his face and manner showed that in his heart he realized that he must continue, as he said Monday in Kansas City, "to bear the odium of a defeated candidate."

Mr. Bryan's voice was low pitched as that of a man who speaks of some great loss, something that has gone out of his life, something that he had struggled for and planned for, and dreamed about.

His face was drawn so sharply that men who have known him for years and studied him long and closely noticed and talked of it long before 10 o'clock. At that hour those in the enclosed porch at Fairview acknowledged that the vote of doubtful states for Taft meant Mr. Bryan's defeat unless unprecedented returns should change the result before morning and that was not expected.

Iowa Plurality Is Cut.

Des Moines, Ia., Nov. 4.—Iowa was carried by the republicans yesterday, but the plurality given Taft is not as large as that for Roosevelt four years ago. It seems that the republican ticket this year has been elected by about 90,000.

The Fight in Illinois.

Chicago, Ill., Nov. 4.—Taft and Sherman carried Illinois yesterday, but the republican plurality of 305,059 amassed by Theodore Roosevelt in the last national election has been materially reduced. Prospects point to the republican plurality of 170,000.

Next in interest to the presidential contest in this state comes that for governor. Governor Deneen appears to have won a re-election by approximately 100,000.

Oregon Lines Up for Taft.

Portland, Ore., Nov. 4.—Oregon, which in state politics within the last four years has given two democratic victories, and which last June gave senatorial instructions for Chamberlain democrat, and at the same time elected a republican legislature and a republican congressional delegation, yesterday cast the big end of its vote for Taft, and he will have its four electoral ballots. The returns indicate his plurality to be about 35,000.

Taft Bags West Virginia.

Charleston, W. Va., Nov. 4.—Despite the opposition of the heavy negro vote and the strife in party ranks, stirred up by the rivalry of the two opposition candidates for governor, the republicans yesterday carried West Virginia, Taft's plurality being about 25,000.

The five representatives chosen for congressional seats are all republican. W. E. Glascock has been elected governor, and the rest of the republican ticket has gained enough votes to insure its success.

Michigan Supports Taft.

Detroit, Mich., Nov. 4.—Michigan's electoral vote will be cast for Taft. There has never been a doubt about the outcome of the election here. The only question was how greatly Taft's plurality would be reduced. The indications are that it will reach about 90,000.

Taft Carries Delaware.

Dover, Del., Nov. 4.—Delaware, which cast its last democratic vote in 1892, when Cleveland carried it by 498, yesterday gave its support to the republican ticket, Taft and Sherman receiving a plurality of 2,000.

Other Election Results.

St. Louis, Mo., Nov. 4.—These states gave the following republican pluralities: Wisconsin, 75,000; Pennsylvania, 407,000; Idaho, 20,000; Washington, 40,000; Maine, 41,500; Vermont, 27,000.

The Vote in New York.

New York, Nov. 4.—William Howard Taft yesterday carried New York, and will receive the state's thirty-nine votes in the electoral college which shall choose the next president of the United States. He carried Greater New York by a plurality of 25,645. His plurality in the state will be over 150,000.

With Mr. Taft the republicans have also re-elected Charles E. Hughes to the governorship, despite the bitter fight made on him by certain elements in his own party and by interests which have hitherto supported the republican party. There is slight doubt that if it had not been a presidential year Mr. Hughes would have been defeated, and as it is, his plurality will be about 57,000.

It was the opinion of many, widely heralded before the election, that the state might split its vote between Taft and Chandler, scratching Hughes for reasons purely local. This was done on thousands of ballots, but the advantage gained by the democratic candidate for governor was not sufficient to procure success for him.

For weeks before the election much was heard of all the old-time opposition to Bryan within the ranks of his own party having been quelled, and to a certain extent yesterday's balloting shows this to be true, but it cannot be denied that any so-called old-line democrats, who in '96 and 1900 failed to support Bryan, yesterday cast their ballots for the republican nominee.

The election of Governor Hughes comes as a surprise to nearly everyone, even the republican state committeemen, who although valiantly protesting that Hughes would be elected, could not help but feel in their hearts that opposition to him within his own party, and the antipathy of race-track men, of the New York police, of the saloon element, of Wall street and countless other little clans, would prevent his election.

The last legislature stood: Senate—republicans, 52; democrats, 53; independents, 2. Democrats today made gains—great gains—but there is no probability that they will be able to control the legislature on joint ballot. A republican seems destined to succeed Thomas C. Platt in the United States senate, and already there has been revived the talk of Theodore Roosevelt's assuming the senatorial toga.

The democrats seems to have held their strength in the congressional districts they controlled in the Sixtieth congress, and they may have gained one or two of the close republican districts.

Bryan's Home State for Him.

Lincoln, Neb., Nov. 4.—Nebraska yesterday returned to the democratic fold, giving Bryan a popular plurality of about 5,000.

The fight in this state was so bitter that but few votes were wasted or cast for a third party. It is estimated that out of a total vote of about 250,000 there were but 10,000 divided among the prohibitionists, socialists and members of other political creeds.

The personal popularity of Mr. Bryan in his own state, the feeling of unrest caused by the financial and industrial conditions in the last year of the Roosevelt administration and the general desire for a change all around are the factors which contributed to the greatest extent in Bryan's victory.

Thousands of republicans supported Bryan this time because of the bank deposit guarantee plank in the democratic platform.

The republicans appear to have three congressmen, and perhaps four, of the state's delegation of six, although the official count may result in democratic success in some of these districts.

The race for state offices was so close, and in way so different from the national contest, that the identity of the next governor is yet a matter of doubt.

The Vote in the South.

St. Louis, Mo., Nov. 4.—The pluralities in several of the southern states yesterday for the democratic ticket were as follows:

Alabama, 50,000; Arkansas, 25,000; Florida, 20,000; Georgia, 60,000; Mississippi, 60,000; North Carolina, 40,000; South Carolina, 50,000; Tennessee, 15,000; Texas, 200,000; Virginia, 20,000; Oklahoma, 30,000.

Republicans Hold Wisconsin.

Milwaukee, Wis., Nov. 4.—The radical element in Wisconsin was not strong enough to swing yesterday's election away from the republicans. Taft and Sherman have carried the state by a plurality much less than

Will Be Cooler Tonight.
Generally fair tonight and Thursday; cooler tonight; rising temperature Thursday.

IS SLOWLY RECUPERATING.
The Democrat-Sentinel isn't saying much this evening. The blow has almost killed the editor, and the balance of the staff are taking turns in trying to cheer him up.

THEY MAKE A ROUGH HOUSE.
Another suffragette outbreak occurred last week in the English parliament house, and resulted in a number of the gentle rioters being fined in the police court, two of them being sent to jail for a month, says the St. Louis Post-Dispatch.

in the midst of one of the debates, shrill voices were heard coming from the ladies' gallery. The dear creatures cried out for "votes, votes, why don't you give women votes?" A male person who probably did not instigate the disturbance, lent his deep voice to the same effect, showering down upon the heads of the members a lot of suffragette tracts. It was what is called in this country a rough house. Public business was suspended, the speaker looked foolish, the prime minister and the leader of the opposition gazed across the table at each other as if they feared the British constitution was about to be wrecked and lost forever.

After a desperate struggle the ladies were exposed with their male shouter and dragged to dungeons dark. The next morning they were brought before the magistrate and flourished their martyrdom with noisy glee.

Can anyone say, after such scenes, and there have been many such, that women are not competent for politics? If women can upset the gravity of the legislature of the greatest empire on earth, are they not able to pack the primary and stuff the ballot boxes? Their efficiency, their natural aptitude for political work is manifest.

Therefore, let women vote. They have demonstrated their understanding of real politics, and it is a crying shame to deny them any longer the rights to which they are entitled.

RAIN FOR THE EAST, PERHAPS.
The states of the east will soon have opportunity to observe what may come of possibilities of weather, according to the discoveries of meteorologists of the world in past years.

The Atlantic has been the scene of many great storms succeeding one another in rapid succession since the terrors of the great drought have covered this country. There are notes from Atlantic liners also that icebergs are putting in an appearance in their tracks. According to these signs from the ocean, there should very soon be great areas of rain in this country between it and the Allegheny mountains.

With water selling at 13 cents per gallon for the absolute necessities of man and beast in sections along the line of the Hudson river, but to far removed for it to be of use, water from springs and driven wells, the blessings of a great general rainfall can be estimated. Certainly there must be a considerable reduction of the temperature in those states, which is necessary for rain.

We of the country between those mountains and the Rockies must look to the west for our lowering of temperature to the point of continuous precipitation that may serve to relieve us from this suspense.

Let us pray that in none of these vast sections of drought-cursed country there may come great and continuous waves of cold to freeze up what there may be left of water at the command of the people.

The highest rainfalls come through winds that have traversed a large breadth of ocean and descend upon warmer waves of atmosphere.

BY DIRIGIBLE TO NORTH POLE.
The complete success, established, questioned by accident, and finally re-established completely, of Count Zeppelin's dirigible balloon, suggests a thought of the possibility of a speedy solution of the difficulty of reaching the North pole. There is, to be sure, always the danger to life and success of adventure of the explosion of the great bag of gas necessary to the operation of this airship.

But Count Zeppelin has frequently given most practical proof of his ability to propel his ship hundreds of miles, steering accurately in any direction he may choose. Let those of the United States and Europe who are constantly hawking their money upon adventure toward the North pole, and then in sending out relief excursions to pick up their adventurers, combine their money in the building of such a ship for just this purpose of crossing the great ice fields of the far north, and their people will reach the pole and plant there the flags of the nations.

Already Zeppelin has carried a dozen men in one of his ships. Following his plans there can be constructed an airship that will carry the necessary cash, instruments, clothing, food and drink, yes, fuel if necessary, that shall sail from the farthest starting point possible north and reach the point desired. It can be done.

There is no longer occasion for such melancholy failure as that of Andree. The dirigible balloon is the thing for this purpose. While the Porpoise is invading the Antarctic circle, why not send a Zeppelin ship to the Arctic and the North pole?

CAR SURPLUS DIMINISHING.
Manufacturers of railroad equipment, and, indeed, all in any way interested in the operation of the railroads, are devoting much attention to the rapidly with which the surplus supplies of freight cars are being diminished, says the St. Joseph News-Press. The former see in it evidence that it will not be long before the railroads are in the market again for additional equipment and pressing their orders as urgently as they were eighteen months ago. This, of course, will bring renewed prosperity to manufacturers and will set the wheels of industry going at about the same rate they were making before the period of general depression began.

On April 29 there were reported by the car service bureau of the American Railway association 413,235 idle cars on the various lines. By October 14 that number had been reduced to 101,000, and this in face of the fact that the increase in manufactures during these six months did not exceed 20 per cent. Had there been much more of an improvement in general business conditions, it is maintained, instead of there being a surplus of freight cars there would now be a famine such as that which previously obtained.

Of course, the greater rate of decrease in the surplus car supplies is due to the movement of grain, but that movement has not been in any way phenomenal and would have to be taken into consideration under any circumstances.

THE HAINS CASE.
Little by little the country learns that it is almost sure to have forced upon it a complete story of the Hains misdoings, says the St. Louis Times. There was reason to hope, a few weeks ago, that much of the scandal would fall to reach the public. Mrs. Hains, it was said, would not be called to the stand and the whole horrible story would be suppressed, save as to the detail of the shooting and the facts immediately surrounding it.

The publication of certain letters attributed to Mrs. Hains has had the effect of bringing a statement from the lady, who says the documents are forgeries. Now comes one of the Hains family with a published letter in which he declared that the communications given out are genuine. He says, moreover, that the family possesses more like them. Mrs.

Hains, in her published statement, intimates that she will sooner or later tell her story. Altogether it is a fine mess.

If there is a lesson to be gained from this affair, it is that which proves that we have had too much unpunished episodes of the Thaw type. All the principals of the Thaw case had for years taken the law in their own hands. Until juries learn to put aside sentiment and apply the statute as written and as interpreted by the judge, we shall have too much court scandal.

"Dad" Smith Mashed a Toe.
J. S. Smith, better known as "Dad" Smith, had the great toe of his left foot mashed last afternoon by a huge lump of coal falling upon it. It may be necessary to amputate the toe.

"The Blood is The Life."
Science has never gone beyond the above statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures, and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

ACCIDENTS WILL HAPPEN.
And the result is usually a spoiled gown. Not so serious a matter as first thought makes it if the facilities we provide for perfect dyeing and cleaning of all manner of fabrics are utilized; and the cost is modest in the extreme.

A \$50,000 SLANDER SUIT

WALTER A. MONTGOMERY, A FORMER SUPREME JUDGE, IS THE DEFENDANT.

REV. THOMAS DIXON, JR., PLAINTIFF

Criticism of the Latter's Play, "The Traitor," Cause of Action—Set for Hearing at Raleigh, North Carolina.

Raleigh, N. C., Nov. 4.—Thomas Dixon, Jr., clergyman, author and dramatist, is the defendant in a \$50,000 slander suit brought against him by Walter A. Montgomery, a former justice of the supreme court.

The case is set for today in federal court. Dixon has retained leading lawyers of this city and New York to fight the suit.

The charge against Dixon grew out of his new play, "The Traitor," which has succeeded "The Clansman," and "The Leopard's Spots" in popular favor.

Judge Montgomery presided at a republican meeting here, at which the republican candidate for governor spoke and in his speech denounced Dixon, saying his play, "The Traitor," was evidently brought south to aid democracy and stir up old fires; that Dixon's face (exhibiting a picture) was that of a hyena prowling about a graveyard from which children would run and women shrink.

Dixon replied through the News and Observer of Raleigh in an open letter, bitterly denouncing Montgomery.

The night after Dixon's letter appeared "The Traitor" played here to a packed house.

RECOMMENDED FOR THROAT TROUBLE.
People in public life, upon whose vocal organs there is more or less constant demand, consider the "common cold" one of the serious afflictions. A noted preacher in one of the larger towns in Massachusetts contracted a cold which would not yield to ordinary treatment, and in a short time became so hoarse that he was unable to make himself heard in ordinary conversation, and preaching from the pulpit was out of the question.

Acting on a friend's advice he took a couple of drops of Virgin Oil of Pine compound pure on a lump of sugar, resulting in almost immediate relief from the hoarseness. It is claimed that a half ounce of Virgin Oil of Pine compound pure, mixed with two ounces of Glycerine and a half pint of good Whiskey, taken in doses of a teaspoonful every four hours, will break up a cold quickly and cure any cough that is curable. Purchase the ingredients separately and mix them yourself.

Virgin Oil of Pine compound pure is a combination of the active principles of the Pine and Santalwood trees, carefully compounded to retain all of the healing, health-giving virtues for which these trees are famous. In order to insure its freshness and purity, it is put up only in half-ounce vials, each vial securely sealed in a round wooden case, with an engraved wrapper, showing plainly the name Virgin Oil of Pine compound pure, guaranteed under the Food and Drugs Act, June 30, 1906, Serial No. 451, prepared only by Leach Chemical Co., Cincinnati, O. The mixture of Whiskey and Glycerine with the Virgin Oil of Pine compound pure makes a sufficient quantity to last the average family an entire year.

Baked by the NATIONAL BISCUIT COMPANY

That tells the story of quality. That's proof of goodness. When you read "NATIONAL BISCUIT COMPANY" on the box your search for the BEST ends then and there. Suppose, for instance, you're buying Graham Crackers. Simply ask for a package of **Red Label Graham Crackers** baked by the NATIONAL BISCUIT COMPANY. You'll get an unusual treat. **Red Label Graham Crackers** are so different from other kinds that they shouldn't be classed with them. Their difference is due to this one fact—

Baked by the
NATIONAL BISCUIT COMPANY

CHANCE IS MIGHTY MAD

LEAVES FOR COAST WITHOUT SAYING GOODBYE TO MR. MURPHY.

A RUMPUS IN RANKS OF THE CUBS

Satisfied to Be Traded to Cincinnati—
"No Chance," Says C. Webb
—The Players Are Balking.

Chicago, Nov. 4.—Chicago's world's champion Cubs are threatened with the loss of their peerless leader. Manager Frank Chance, angered

and still unrelenting, departed for California at 6 o'clock Monday night, vowing that unless President Charles W. Murphy made concessions he was through with the Chicago club. Further, he declared that if President Murphy failed to go through with the threatened trade of Chance for Hoblitzell and Lobert with Cincinnati, he (Chance) would go through with the trade himself.

Meantime President Murphy, ill in bed at his home in Oak Park, tried to make light of the trouble between himself and Chance, and stated confidently that there was no chance for Cub manager to get away from Chicago. Yet, in spite of his making light of the matter, President Murphy was worried and the worry added to the seriousness of his illness.

When he heard that Chance had left Chicago sooner than he had planned, the president was still more worried—as Chance departed without

waiting to settle with Murphy the details of proposed trades and the training trip.

"If Frank had seen me before starting all this could have been settled," said President Murphy. "My illness kept me from the office and a small thing has been magnified into a big one. I want to say that there is not a chance that Chicago will lose Chance. He's the greatest baseball manager in the world, and, after having him, I certainly am not going to let him go to Cincinnati or anywhere else."

"The whole matter has been magnified from a difference of opinion between us. We had lots of differences of opinion—and I am frang enough to say that when Chance and I differ, or get into an argument on baseball matters, I may stick up for my own side of the argument, but if I was a betting man, I'd back Chance."

"There is a story that we quarreled over money matters. Manager Chance signed a four-year contract late this season and was perfectly satisfied. As for the other players wanting more money, why I'll give them all they are worth or I can afford."

"Chance isn't going to Cincinnati. I wouldn't trade him for the Cincinnati park, franchise, players and Herrmann's income."

Chance, however, departed for the west sore and rebellious and as firm in the stand he has taken as ever.

Just what the nature of the trouble was, neither Chance nor Murphy would divulge. Among the players who still are in the city it is believed that it started over money matters.

The truth is that the Cubs were bitter toward President Murphy over the sale of tickets for the world's series and over the small returns to them as victors. During the post season festivities two of Murphy's star players openly declared that if the Pacific Coast league turned "outlaw" they would jump there at the first offer.

It is claimed by some of the Cubs that Murphy balked Chance on a money proposition because he knew four other members of the team were going to demand additional salary. Chance, it is known, proposed to Murphy that their argument be submitted to five newspaper writers who have watched the team all season, to have them decide whether or not Chance managed the team correctly. President Murphy declined.

NO MORE MISERY IN THE STOMACH

A Dieted Stomach Gets the Blues and Grumbles for a Good Eat—No Use to Be Afraid of Your Favorite Foods Then.

There would not be a case of Indigestion here if readers who knew the tremendous digestive virtue contained in Diapiesia. This harmless preparation will digest a heavy meal without the slightest fuss or discomfort, and relieve the sourness, acid stomach, bloating, nausea, and all other ailments of the stomach.

Ask your pharmacist to show you the formula plainly printed on each 50-cent case of Fape's Diapiesia, then you will readily understand why this promptly cures Indigestion and removes such symptoms as Heartburn, a feeling like a lump of lead in the stomach, Belching of Gas and Eructations of undigested food, water brash, Nausea, Headache, Bilioousness and many other bad symptoms; and, besides, you will not need laxatives to keep your stomach and intestines clean and fresh.

If your Stomach is sour or your food doesn't digest, and your meals don't tempt you, why not get a 50-cent case today from your druggist, and make life worth living? Absolute relief from Stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and besides, one case is often sufficient to cure a whole family of such trouble.

Surely a harmless, inexpensive preparation like Diapiesia, which will always, either at daytime or during light, relieve your stomach misery and digest your meals is about as handy and valuable a thing as you could have in the house.

GOLF AT ATLANTIC CITY

ENTRIES CLOSE THIS EVENING FOR THE ANNUAL FALL TOURNAMENT.

BE ONE OF BEST TOURNEY EVER HELD

Qualification Play Will Take Place Tomorrow and Will Consist of 18 Holes, Medal Play—Many Fine Prizes.

Atlantic City, N. J., Nov. 4.—Entries close this evening for the annual fall golf tournament of the Country Club of Atlantic City, which will be in progress during the next three days. The list of entrants include some of the crack golfers of the country, and with proper weather conditions the tourney will doubtless be one of the best ever held here. All players belonging to the United States Golf association are eligible.

Qualification play will take place tomorrow and will consist of eighteen holes, medal play. The time of starting and playing each player will be announced tomorrow evening. Sixteen will qualify. The first for the governor's cup, the second for the president's cup, the third for the Atlantic City cup, the fourth for the Northfield cup, and the fifth and the sixth for special cups to be given to these classes. In cases of ties in qualifying rounds, the committee will draw lots to decide which sixteen the contestants will play in.

The first and second rounds of match play will take place on Friday, and the third and final rounds on Saturday. All matches will consist of eighteen holes. On Saturday, all day, an eighteen hole medal play handicap will be played, for which entry must be made not later than 10 a. m. of that date. And the score turned in must be the first eighteen holes played by the contestants on that day. A special consolation event will be arranged on Friday, for the defeated eight of each sixteen, so that the contestants attending the tournament may be given an opportunity for competing during the entire three days.

All the cups become the absolute property of the winners without further competition. The governor's cup will be awarded the winner of the tournament. The president's cup will be awarded the winner of the second sixteen. The Atlantic City cup will be awarded the winner of the third sixteen. The Northfield cup will be awarded the winner of the fourth sixteen.

Special cups will be awarded the winners of the fifth and sixth sixteens. Prizes will also be awarded for the runner-up in each sixteen for the main prize. The individual player making the best qualification score, eighteen holes, medal play, on Thursday, will receive the qualification prize.

Prizes are offered for the winner of the handicap and for the player making the best gross score in the handicap. A special prize will be offered to the winners of the defeated

eight events. Excepting the best gross score prize for eighteen holes, a contestant may win but one prize during the tournament.

DR. THOMAS TO LEAVE

Popular Pastor Will Go to Indiana Soon.

Rev. D. L. Thomas, who has for several years past been pastor of the First M. E. church, will leave us on January 1st, says the Clinton Democrat.

He has arranged to exchange charges on that day with Rev. Wm. N. Gaither, of Spencer, Ind., the exchange being effected through the bishops of Indiana and the St. Louis conference. Dr. Gaither comes from a strong church with which he has been serving his fourth year, and is popular and able.

His congregation here and the conference as well will sincerely regret to lose Dr. Thomas. He is prompted by various considerations in making the change. His son is going to school near there and it is in the vicinity of his old home, where he has a farm, which he can give his personal attention.

Stomach trouble is but a symptom of, and not
itself a true disease. We think of Dyspepsia,
Heartburn, and Indigestion as real diseases, yet
they are symptoms only of a certain specific
Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop
in the creation of that now very popular Stomach
Restorative—Dr. Shoop's Restorative. Going direct
to the stomach nerves, alone brought that success
and favor to Dr. Shoop and his Restorative. With-
out that original and highly vital principle, no
such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad
breath and sallow complexion, try Dr. Shoop's
Restorative—Tablets or Liquid—and see for your-
self what it can and will do. We sell and cheer-
fully recommend

THE W. C. T. U. MEETING

Ladies Met With Mrs. Allen Tuesday
Afternoon.

The regular meeting of the Wom-
en's Christian Temperance Union
was held at the home of the secretary,
Mrs. J. H. Allen, Tuesday evening.

The question of more effectual
temperance work as it relates to the
rising generation was discussed at
some length, and it was decided to
inaugurate a system of essay work
among the school children, offering
them appropriate prizes for the best
productions along the line of scienti-
fic temperance.

It was further agreed that in the
near future the ladies of the W. C.
T. U. would give a reception to the
public school teachers, and also have
a parlor meeting, to which all friends
of the temperance cause will be cor-
dially invited.

The time and place for these meet-
ings will be announced later.

"PICTURES ARE VULGAR"

AND THE LABELS ADVERTISING CERTAIN LIQUOR ARE SUGGESTIVE.

INDICTMENTS BY THE GRAND JURY

Crusade Was Commenced by a New York Weekly Paper and Was Taken Up by Newspapers All Over the South.

St. Louis, Nov. 4.—As the result of a crusade commenced by a New York weekly periodical, and taken up all over the south, members of the firm of Levy & Co., distillers and liquor dealers, have been arrested on charges of using obscene and indecent labels on their products.

It was alleged by the New York magazine that the gin made by the concern, and which is largely consumed by the negroes of the south, bore suggestive and vulgar labels, and that the advertising matter of the company was of such a character as to violate the postal laws.

Insinuations have been made that the gin is largely responsible for arousing base passions of the negroes and driving them to the nameless crimes against women which are of such alarming frequency in the south.

The indictments were returned by a federal grand jury against Lee Levy and Adolph Asher. It is stated that these men have become wealthy through the sale of their gin, which is one of their principal products. Prominent attorneys have been engaged to defend the men and the trial promises to develop many sensations.

There are two counts in each of the indictments against Asher and Levy. The first indictment is brought under the law governing express companies, while the second is on alleged violation of the postal regulations. The four counts render Asher and Levy each liable to a maximum penalty in case of conviction on all of twenty years in the penitentiary and \$20,000 fine.

An eastern weekly publication took up the issue and attacked District Attorney Henry W. Blodgett and the officials of this federal district for their alleged failure to act, in a series of violent articles in which the negro assaults of the south were laid at the door of distributors of such labels and indirectly the local government officials.

Asher & Levy have been made the issue in prohibition fights up to date in the southern states. In the Patterson-Carmack gubernatorial primaries last spring, Carmack exhibited an alleged Levy label at nearly all his meetings.

The labels formerly used by Levy & Co. on their gin bottles are the grounds of the indictments. The government contends that by holding the labels in a certain position the picture presented is one that tends to arouse depraved passions in a negro.

Asher and Levy will fight the indictments to the last ditch. The objectionable labels were removed from their goods under the storm raised by southern prohibitionists in the heat of the Carmack-Patterson campaign. At the same time one of the whisky company's salesmen was indicted in the federal court in Louisiana, but the case against him has been dropped.

IMMEDIATE RELIEF

For Coughs, Colds, Sore Throats and Hoarseness, by Using Hyomei.

When you catch cold you want to get rid of it as quickly as you can. You don't want to lie around the house for a week swallowing nauseating drugs. You know when you do this that you are not only making your own life miserable, but are a nuisance to everyone about you.

Why not avoid all this? Why not relieve your cold in five minutes? Why not cure it over night? You can do it by using Hyomei, the sure and guaranteed cure for colds, coughs, sore throat, catarrh, bronchitis and asthma.

Hyomei (pronounced High-o-mei) is medicated and antiseptic air. You breathe it into the lungs through a small pocket inhaler, and its soothing influence as it passes over the inflamed membrane of the respiratory tract, stops the mucous discharge, allays the inflammation, and the cold is cured. A complete Hyomei outfit costs \$1.00 and the W. E. Bard Drug Co. will refund your money if it fails to cure.

GOING AFTER THE SHARK

WARFARE WILL SHORTLY BE IN-
AUGURATED FOR EXTERMI-
NATION IN SOUTH.

FISH FAMINE IS NOW IMMINENT

It is Alleged the Sharks Are Respon-
sible for the Scarcity of Edible
Fish in Most of South-
ern Waters.

Savannah, Ga. Nov. 4.—A warfare
for the extermination of the sharks
which abound in the waters of the
South Atlantic will shortly be inau-
gurated by the government fisheries
bureau, with the co-operation of the
big fishing companies of this section.
It is alleged that the sharks are re-
sponsible for the scarcity of edible
fish. For some time there has been
complaint among fishermen of con-
stantly decreasing catches, and unless
steps are taken to eliminate the
sharks, a fish famine is imminent.

As one of the measures for exter-
minating the sharks and dogfish,
which devour the smaller fishes, it is
proposed to establish fisheries for
the preparation of sharks for food. It
is declared that the "tigers of the
sea" are really tasty and nutritious
and that in time shark as a diet will
become popular.

It is said that sharks are doing mil-
lions of dollars worth of damage an-
nually to commercial fisheries on the
coast by devouring other valuable
food fishes and incidentally by de-
stroying the nets of fishermen. The
large fish shipping industry makes
the matter of peculiar interest here,
and experiments to protect the in-
dustry will be given attention. Steps
will be taken by the government and
it is needless to say that the co-
operation of the fish dealers along the
coast will be heartily given to any
measures which may be adopted.

To determine the availability of the
dogfish, or small shark, as food, the
bureau of fisheries is now conducting
a series of investigations. Members
of the staff of the bureau have tried
them fried, and cooked in various
other ways, and have found them ex-
cellent. The fish has no bones, is
more nutritious than beefsteak, pound
for pound, and it ought to prove the
cheaper of all foods, inasmuch as dog-
fish, by reason of their vast abun-
dant, can be sold profitably and
cheaply by the fishermen. The state-
ment is made by those connected with
the fisheries bureau that in the cre-
ation of a market for dogfish and
their by-products, lies the solution of
the edible fish problem.

Already, on the Nova Scotia coast,
these fish are put up in cans, and the
industry is said to be quite profitable.
The oil is used for lubricating pur-
poses and the skin, which is water-
proof and tough, covered with small
toothlike thorns, set close together, is
employed by cabinet workers and
metal workers for scraping and pol-
ishing. In Europe the skins are used
for covering card cases, jewelry
boxes, sword hilts and sheaths and var-
ious ornamental objects.

Most people past middle age suffer
from kidney and bladder disorders
which Foley's Kidney Remedy would
cure. Stop the drain on the vitality
and restore needed strength and
vigor. Commence taking Foley's Kid-
ney Remedy today.—Arlington Phar-
macy.

WOMAN'S NATURE

she looks forward to the hour with apprehension. Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, unpleasant feelings, and so prepares the system for the ordeal that she passes through the event with but little suffering, as numbers have testified and said, "it is worth its weight in gold."

WALKING UNDER A HORSESHOE

It is said to be a sign of good luck, except to turkeys at this season. Walking over horse-shoes put on by us is certainly goodluck to your horse. They fit so comfortably, protect the tender parts so perfectly that he will know at last the pleasure of being rightly shod. Make your horse thankful by having us shoe him.
